

The University of Utah Otolaryngology and The Medical University of South Carolina Otolaryngology present,

Head and Neck Oncology Summit

Grand Summit
The Canyons, Park City, Utah
August 18-20, 2010

Thank you for your interest in our Head and Neck Oncology Summit that will be hosted by The University of Utah Otolaryngology and The Medical University of South Carolina Otolaryngology at The Canyons Grand Summit Hotel in Park City, Utah on August 18th-20th of 2010.

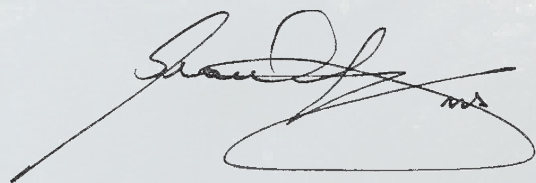

This special two and one-half day event will bring together world class Head & Neck Oncologic Surgeons, Medical Oncologists, as well as Radiation Oncologists, Nurse Practitioners, nurses, dentists, dental hygienists, and anyone interested in the diagnosis, treatment and long-term issues related to head and neck oncology. Our faculty includes locally and nationally recognized experts in the area of Head and Neck Oncology to discuss contemporary state-of-the-art treatment strategies and areas of controversy in a challenging arena of cancer care. Our summit will include didactic sessions, panel discussions, and small group sessions focusing on a variety of issues in Head and Neck Oncology.

A variety of mountain activities including hiking, mountain biking, fishing, and other alpine adventure activities are available as well as shopping in the nearby town of Park City, Utah.

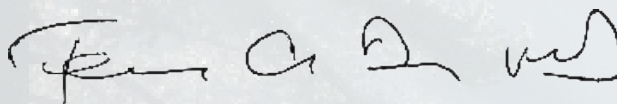

We will be hosting a reception and dinner at The Point Restaurant that overlooks the entire Salt Lake Valley. This will give participants and faculty a chance to get to know each other on a more informal level. The week's activities will culminate with a weekend of the Park City Jazz Festival.

We would like to thank our participants, faculty, sponsors, supporters, exhibitors and all other individuals who will be contributing to make this inaugural summit an overwhelming success. Please revisit our website in the coming months to find more details and for on-line registration. We look forward to seeing you in Park City then.

Sincerely,

Brandon G. Bentz, MD
Associate Professor
Head & Neck Surgical Oncology
Director of Clinical Research
The University of Utah School of Medicine

Terry Day, MD
Director, Division of Head and Neck Oncologic Surgery
